E. C. WALTON.

THE Philadelphia preacher who said in his sermon that a man may be a sincere christian and an active politician at the same time is not as astute as the Philadelphia lawyer, whose astuteness and general understanding have become axiomatic. The lawyer knows and everybody else knows, who knows anything, that latter day politics and christianity do not mix even a little bit. A camel can get through the eye of a needle with more ease than the average politician can read his title clear to mansions in the skies. Electrician is a royal-bred horse, fine style and action with great beauty. He is a horse that possesses great speed and gameness, although his record is only 2:24 1-4, he repeatedly showed miles in 2:15. A number of his get has been sold for roadsters, bringing from \$300 to \$1,500. As most of his colts are beauties with fine action, style and size I can recommend him as a great stock horse.

Will make the season on same conditions and at same place as Clay King, at the fee of \$15.

Clay King, with any kind of stud opportunit'es.

2:21:-2, by American Star 14, 3 dam by Emmon's Duroc.

Clav King, with any kind of stud opportunit'es, would today be in the first fight of successful sires of extreme speed. His stud carer is practically just begun, and there is not a horseman in the Biue Grass State who does not regard him as a wonderful sire of early and extreme speed. Every man at the Lexington track has seen his get accomplish what has never been done by the produce of any other horse: they have seen his yearling step quarters in 35:-4 seconds and then sell for startling prices; they have seen his older representatives show as much speed, gameness and genuine race horse qualities as those of any sire ever quartered in Kentucky.

Clay King will make the season of 1905 at the low price of \$12.50 to insure a living coit. A lien retained upon the foal to secure the payment of the season. All care will be taken to prevent accidents to stock intrusted to our care, but should any occur we will not be responsible for the same.

MASTIC MIXED PAI

Can't Be Touched for painting houses. The reason's plain. Mastic

is the purest, therefore the most durable and economical. There is a whole string of "other fellows" claiming "just as good as Mastic" but they don't prove it. Maybe they can't. The analysis of Mastic is published. It's made of pure lead, zinc and linseed oil-the most durable kind of paint-and its purity is therefore unquestioned.

As purity means durability, the splendid wearing qualities of Mastic have given it the title of "The Kind That Lasts," and this title is backed up by our absolute guarantee. Mastic is made by
